INTO THE LIGHT

```
Into the light...
         His particles flow
Into the light...
  They dance and they float
 But ---.
                 not in this.... boat
I hear his voice on the water
Showering you with compliments
Oh NO. ——-
that's not Rodger,, not Rodger at all
And when he does praise you
 You cherish it near
You then ask your neighbor, tell me tell me ...Did you Hear ??
Into the light ..
         Particles fly to the sky...
Perhaps mingling with Rodger's creative Sci-Fi
Into the light ...
     My heart it is heavy
My head is hung low
Into the light...
     I must let you go..
TO GO where you will
 Untethered, and exploring
To travel to other universes
Just knowing there is more
We miss you dear Rodger,
No worries, your legacy is set
We honor your life's love, labor and passion
To greet the newbie and take them under wing
To foster new coaches ,drummers and steers
To honor this family of teammates You held so dear
For Linda honey, Max and Ruby..... We are here
Oh yes! There'll be dancing, music and cheer
Paddles up Coach Rodger - we hope you will steer,
Steer our hearts, minds and bodies for many a year
Into the light
                              a t
       His par.
                            0
             tic
                          1
```
